

**Event:** CA20108 FAIRNESS\_General meeting (WG1 meeting)

**Document:** REPORT WITH WG1 MEETING MINUTES

**Date:** 31.03.2022.

**Time:** 9:00 h - 10:30 h

**Place:** Hybrid – Live/Online (Zoom meeting)

**Participants:**

- attendance of the WG1 members is part of the General meeting attendance list –

- 1) Review of the Task1.1 activities and presentation of D1.1. Also, we discussed of possibilities to collect more micrometeorological networks in the next months and agreed to accept new networks to be part of the Micronet\_KSP;
- 2) Metadata – the draft version of the Metadata concept are presented and discussed about details. The conclusion is that WG1 leader will coordinate with members who are interested to participate in improvements of the Metadata list (Core group members) and afterthat will present to all WG1 members for further check. The Metadata list will be finish until the end of April;
- 3) Review of the Task1.3 activities and what was done up to now. Also, we defined the activities to extend the Pan-European list until the April 14th (deadline for D1.3). We defined general steps until the end of 2022 related to extend more the Pan-European list;
- 4) Task1.2 - we agreed that Ivan Koči will be a leader of the Task1.2. We discussed in general the strategy how to implement the QC of datasets as a part of the Micronet\_KSP. In the next WG1-WG2 meeting we will define in more details related with QC;
- 5) WG1-WG2 communication – we defined a general protocol of further communication between these two WGs and agreed to prepare a new common meeting in the next two months.
